

## ***Trophy Run***

Today was the first time we saw what the team has learned in the weeks leading up to this event. Dominic navigated today with Tony at the wheel and the rest of the team in the car for the ride. This is the only day that we can have more than 2 in the car with out a penalty. I stayed at the hotel and worked on the web page and caught up on some paperwork.

Jay left for the airport several hours early and I do not know what happened to him after that. I fear that he spent a lot of time in airports but you may have to ask him about that.

The Trophy run was a hard day with a lot of speed changes and maneuvers around Philadelphia. As cars started to arrive mid afternoon I waited and waited for our team to show up. No X-Cup teams had arrived until almost 4:00 p.m. Team Walla Walla was the first to pull into the finish. I was glad to see them and even happier when I learned that they were under a minute for the first try. As it turned out, that was a good enough score to earn us the trophy for our division. Two of the X-Cup teams did not finish that day but this does not count against their overall score for the race.

Watch for more pictures. I will be at least a day behind as we start to move across the country.
