

## Starting The Journey

On Saturday June 17, the team and families gathered at our home to eat pizza and load the trailer. We added our spare parts before we put the car in the trailer and then we loaded the luggage for the team. Dale Peterson and Jim Suckow worked on the trailer lights into the dark but we got all working. Jay Gerbino and I left Walla Walla right on time at 6:00 am (with the adjustments made to the clock so we would be on time).

We have traveled for 2 days and find ourselves in Iowa City, IA for a much-deserved nights sleep in a bed. The trip has been without incident. We plan to drive long tomorrow (Tuesday) and stop in Bedford, PA, which will put us about 3 hours from Philadelphia for Wednesday. Weather has been good but plan on it getting hot! It should be in the 90's the rest of the week.
